

“Promoting Cooperation among European Regions for Capacity Building of Integrated Care Systems based on Innovative Services and Technologies”

Achievements in NEXES

Josep Roca

The project has demonstrated that ICS for chronic patients supported by ICT (ICS-ICT) enhances clinical effectiveness and can generate cost containment

We consolidated the design of an open *Health Information Sharing Platform* supporting organizational interoperability among actors and clinical decision support systems

Nexes proposes an innovative business case articulating all actors

The project formulates strategies for scalability of ICS-ICT at regional level

Promoting Cooperation among European Regions for Capacity Building of Integrated Care Systems based on Innovative Services and Technologies

Proposals for Meeting Conclusions

Common Challenges
